## PTZ HYBRID / Fiber INTERFACE

**PTZ Hybrid or Fiber-Pair Link      Single or Dual Channel**

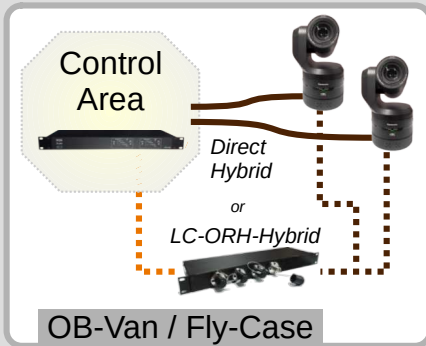

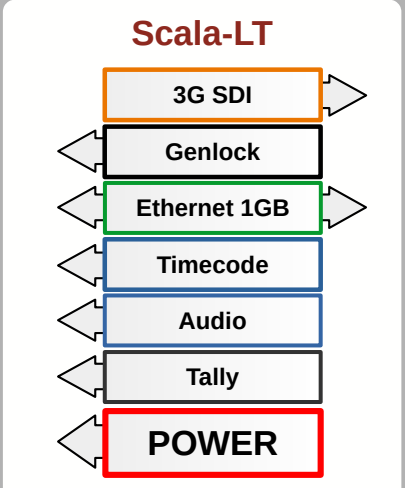

### Scala-LT Description

**Scala LT** is the light version of Scala Modular System. It has been developed to use High End PTZ Cameras via hybrid cable (Power+Fiber) handling all necessary signals required in live events. Typical application are Fly-Cases, OB-Vans and Theatres installation

Four SDI options (added to original SDI 3G):  
 [3G BiDir] or [12G] or [ 12G BiDir] or [Free Fiber]- (usable for ST 2110/ HDMI/..)

Two possible Hybrid Connectors: SMPTE 304 (Lemo) or Neutrik DUO directly mounted on CCU or on a Remote Hybrid Power Unit (ORH or SHED with LC/LC on CCU) allowing a very flexible installation

Scala LT may be also ordered with hybrid connectors directly mounted on CCU

**Optional Remote Hybrid Power Units**  
 Manage power to CCA/ PTZ

**1RH Wall Box / SHED (½RH)**  
 Single Channel Hybrid Interface

**ORH Unit**  
 Host up to 4Ch Hybrid Interface (1RU)

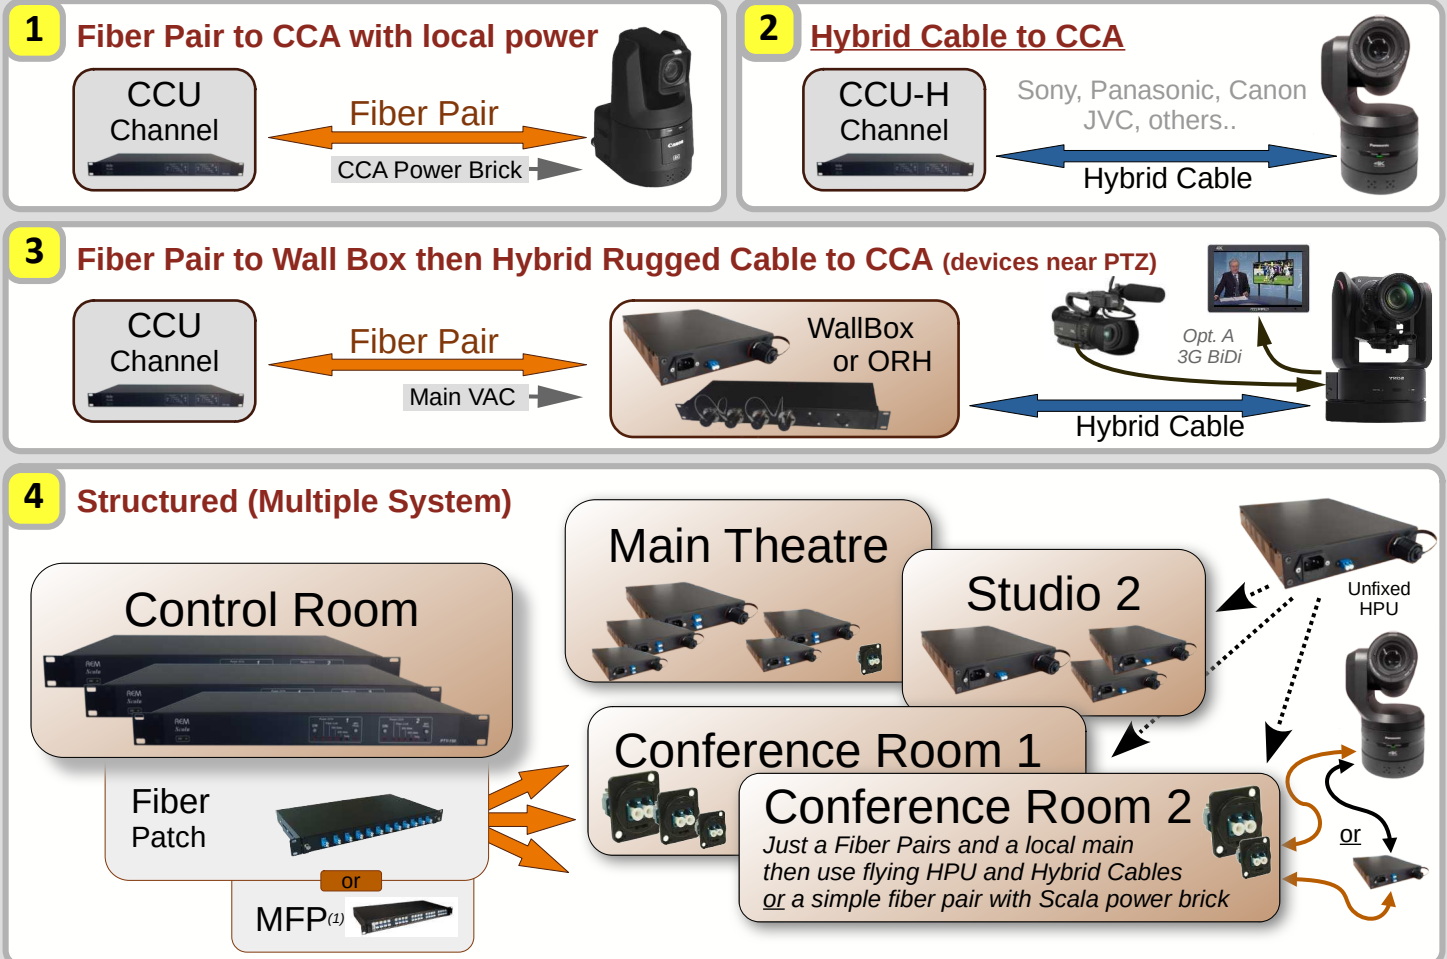

HPU with Lemo and rugged LC-LC input (Neutrik DUO Lite)

ORH with four LEMO
